DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed August 12, 2004, with respect to the claims have been fully considered and are persuasive. The rejection of claims 1-6 has been withdrawn.

The drawings received August 12, 2004 are approved.

Allowable Subject Matter

2. Claims 1 – 10 are allowed.

3. The following is an examiner's statement of reasons for allowance: The Applicant filed an amendment received on August 12, 2004. Regarding independent claims 1 and 6, a review of prior art failed to make obvious, disclose or fairly suggest an optical filter in which the photosensitivity of the cladding layer is greater than the photosensitivity of the core and the cladding includes an index step area having a refractive index n_3 greater than n_2 and less than n_1 in addition to the accompanying features of the claim.

Claims 2-5 and 7-10 are allowed by virtue of their dependence upon independent claims 1 and 6 respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent 6,351,588 to Bhatia et al. describes a doped fiber with a Bragg grating.
